past, present and future

Anton Hiltz

ALPINE SKIING

At last year's Western regional junior championships, Anton Hiltz won the Super G and placed ninth in the slalom for a second place finish in the overall combined. He also won the giant slalom in the J-3 category at the national championships. It was a fitting step in a racing career that began in Aspen when Hiltz was five and has taken shape during five years of race training with MBSEF.

"I would like to eventually make it onto the U.S. Ski Team and ski in the Olympics," the 15-year-old Summit High sophomore says. "But first I'd like to ski for the University of Colorado."
